

30 LED High Power Solar Street Light (Single Head)

Complete System

NEOJ2018-11

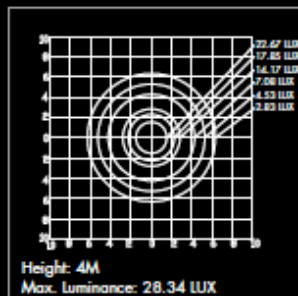

Technical Parameters

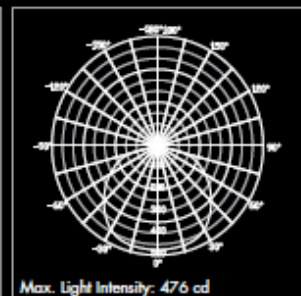

Light source:	30 x 1W High Power LED
Color temperature:	2000K±200K / 6500K±500K
Luminous flux:	1550lm
Average illumination:	12Lux/4M
Area of illuminance:	±6M
Total power:	30W
LED operating current:	24VDC
Peak watt of solar module:	110Wp
Battery:	Maintenance free battery 100AH/24V 10 Hours per day / 5 days total running time on a fully charged battery. (typical)
Specially designed controller:	- Light Control - Over Charge Protection - Over Discharge Protection - Auto Switching to Mains (when battery falls below a predetermined level)

CE RoHS IP65

ISO-Luminance Curve

Candle Power Distribution
